Subject: Outrage that SCE&G is requesting a rate increase

RECEIVED
3/1/11
tod

At a time of belt tightening for my family, my business and my community, I am outraged that SCE&G has requested yet another rate increase.

We have attempted to be good citizens by turning our thermostats down to 65 degrees this winter and simply wearing more clothing inside the house and at work. Meanwhile through poor planning, mismanagement and while abandoning any responsibility for same, SCE&G claims that they need more money.

This is an affront to all of us who are trying to do our part to help families and businesses in our communities conserve. While most families and businesses are conserving and passing on lower costs to consumers....even the dreaded Pharma industry, SCE&G is retrenching and relying on the good old boy network to see them through.

Please do not allow this travesty.
